JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*One fatal cholera case at Cebu.*

CEBU, P. I., November 4, 1902.

SIR: I have the honor to inform you that no cases of cholera have occurred in the towns about this bay with the exception of Cebu. One case occurred October 30 in the person of a white man who came from Danao. He was promptly isolated and I think will not give much danger of infecting the town. The second case occurred on a banca from Argao while she was held in quarantine to complete the required time and did not enter the town at all. The man died and was taken to the cemetery without communicating with the city. No cases in Cebu since October 14, 1902.

Respectfully,

H. A. STANSFIELD,  
*Assistant Surgeon.*

The SURGEON-GENERAL,  
*Through Chief Quarantine Officer for the Philippines.*

*Weekly report of the outgoing quarantine at Manila, P. I., instituted for the protection of other Philippine ports on account of the prevalence of cholera in Manila—weeks ended October 25 and November 1, 1902.*

	Week ended—	
	Oct. 25.	Nov. 1.
Number of vessels remaining in quarantine from last week (a).....	5	17
Entering quarantine during the week.....	23	7
Discharged from quarantine.....	11	21
Sailing for infected ports without quarantine inspected and passed.....	39	53
Number of crew entering quarantine during the week.....	729	249

## TURKEY.

*Cholera in Syria.*

Consular Agent Schumacher, at Haifa, reports, November 19, as follows:

Cholera has decreased in the Sanjak of Acca. At Tiberias there were 12 cases on Monday and 9 on Tuesday last. In all, 420 persons died of cholera in the town of Tiberias since the outbreak on October 24 \* \* \* Haifa, Acca, and Nazareth are clean, but each town is surrounded by a cordon of watchmen, preventing the entrance of people who come from infected regions. At Jaffa the disease has been prevailing for weeks. Yesterday 20 cases died of cholera at Jaffa and 130 in the village close to it.

*Foreign and insular statistical reports of countries and cities—Yearly and monthly.*

AFRICA—*Lourenço Marquez*.—Month of October, 1902. Estimated population, 7,000. Total number of deaths, 20, including 3 from tuberculosis.
